

**Supplementary Table 2.** Arterial distributions of strokes involving more than one vessel territory (N = 87)

	Internal carotid artery (ICA)	Middle cerebral artery (MCA)	MCA perforator	Anterior cerebral artery	Basilar	Posterior inferior cerebellar artery	Posterior cere-bral artery (PCA)
ICA	-	-	-	-	-	-	-
MCA	0	-	-	-	-	-	-
MCA perforator	0	0	-	-	-	-	-
Anterior cerebral artery	0	0	2	-	-	-	-
Basilar	1	0	4	0	-	-	-
Posterior inferior cerebellar artery	1	11	3	0	0	-	-
PCA	5	27	5	5	0	15	-
PCA perforator	0	1	5	0	0	2	0

Table excludes arterial distributions affecting < 2% of patients after exclusion of strokes affecting multiple vascular distributions. This left 87 points of overlap.
